## About me

I am a software developer with 3 years of professional experience that got translated into great capacities to work directly with clients, solving their problems, while delivering efficient and maintainable software. I'm very familiar and experienced with Web Application Architecture, and I've used this knowledge to develop many applications in the last few years.

## Education

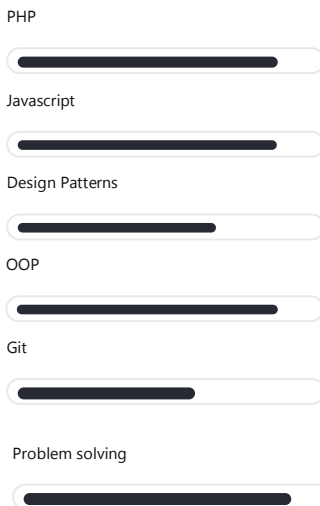

**Computer Systems Management and Programming Technician** 2012-2015

Colégio de São Miguel, Fátima
